# Faaborg Siben

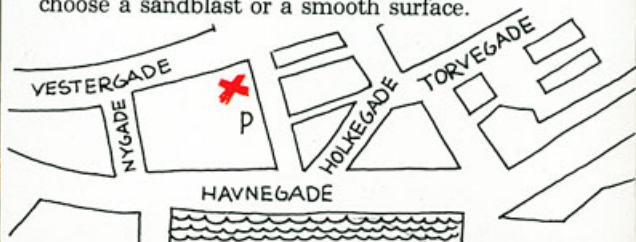

Faaborg is a small danish sea-port on the south coast of the idyllic and picturesque isle of Funen. The old and charming harbour is the centre of the best yachting in Scandinavia.

This is where the Faaborg Pipe is made.

The Faaborg Pipe is sculptured by hand - from the best materials available and in accordance with the finest traditions of pipe-making - to enhance the pleasure of smoking good tobacco.

Each lump of briar is carefully selected and seasoned before shaping begins. By following the structure and the fine grains of the briar root the pipes are formed to become the pride of any particular pipe owner.

Handmade pipes are far superior to ordinary pipes. When you choose one of the models in this catalogue we will make your pipe as close to your wishes as possible. However, you will not find two pipes exactly identical in structure and shape. You can choose a sandblast or a smooth surface.
